WHO DO.

Are you protected?

Lenovo's Accidental Damage Protection gives you the peace of mind to know your investment and budget are protected from the hassles of unexpected repair expenses. It covers accidents beyond the system warranty and protects your PC from non-warranted operational or structural failures incurred under normal operating conditions.

Services are carried out by Lenovo trained technicians, using Lenovo approved parts in certified repair centers. If the PC is not damaged beyond repair, the end users' own PC is returned. If repair is not possible, the entire system will be replaced at no additional charge¹.

WHAT'S TYPICALLY COVERED?

Accidental drops, spills, bumps, and structural failures incurred under normal operating conditions or handling, electrical surges and damage to the integrated LCD screen. If you have Onsite warranty coverage, you may qualify for Onsite ADP repairs². This service is available in the country or region in which you purchased your Accidental Damage Protection coverage, and is not transferable should the system travel to another country.

Examples:

- Your system accidentally slips off the table and the LCD screen cracks.
- An electrical surge causes significant damage to your PC's hardware during a lightning storm.
- The coffee spills on the keyboard and the extent of damage is unknown.

WHAT'S NOT COVERED?

Cosmetic damage³, theft, equipment loss, intentional damage and misuse, failures due to usage outside of normal operating conditions, parts intended to be replaced by the customer, or fires. Any data loss or interruption of business. Damage to peripherals or third-party products, even if sold by Lenovo.

Examples:

- The outer case cracks but your system still operates effectively.
- You've left your PC behind on the subway.
- The system is used in the rain, and you lose an entire day of productivity because your PC no longer functions.
- The stylus or battery is misplaced.

WHY ACCIDENTAL DAMAGE PROTECTION?

BENEFITS:

- Based on a sample of Lenovo claims, Accidental Damage Protection can save, on average, 28% versus the typical cost of notebook repair, and 75 – 80% for Tablets (ADP available on ThinkPad® Tablets only).
- Typical replacement costs for commonly damaged components:

System Board up to \$500	DVD Drive \$200	Display \$450
Hard Disk Drive \$300	Damaged tablet \$250 for minor repairs and up to \$600 for replacement of multiple parts	

- IT Departments don't have to purchase and manage spare inventory to fix damaged PCs.
- Lenovo's comprehensive diagnostic tools can identify hidden damage that may have otherwise gone untreated.

With a single, predictable upfront investment, you can accurately predict and budget service costs for the year. Depending on the number of systems covered, your organization could save thousands relative to the cost of uncovered repairs.

The following case study illustrates a real world example of a Fortune 500 Customer purchasing Lenovo's Accidental Damage Protection:
